

tesseract\_scene\_graph  
::StateSolver

```
graph BT; A[tesseract_scene_graph::MutableStateSolver] --> B[tesseract_scene_graph::StateSolver];
```

The diagram illustrates an inheritance relationship between two classes. At the bottom is a box for 'tesseract\_scene\_graph::MutableStateSolver' with a light gray background. A blue arrow points upwards from this box to a box at the top for 'tesseract\_scene\_graph::StateSolver' which has a white background. This indicates that 'MutableStateSolver' inherits from 'StateSolver'.
